## OLD MOONSHINE STILL

**Plant Once Owned By Granville Phillips, Who Lost His Life Resisting Federal Authorities Taken After Many Years**

Harrison, Ark., Aug. 19.—Deputy United States Marshal Hiram Sutterfield, aided by Major True, and Jesse Johnson, has at last captured the old "wild cat" distillery which has familiarly been called "Old Tige," being the same one used by Granville Phillips, the notorious moonshiner who lost his life eight or ten years ago, while resisting the officers.

The distillery has a capacity of 110 gallons, and was in splendid condition, and the most perfect and complete outfit yet captured by this vigilant officer.

Phillips who formerly operated this "still" evaded the officers in the Osage hills for years, but was finally overtaken by the officers and killed while resisting arrest.

The officers, however, at that time failed to find and destroy the plant, as some of the associates moved it to a hiding place in some dark hollow in the mountains.

This distillery was located and captured by Sutterfield, near White Oak mills, near the line between Carroll and Madison counties, and was brought here yesterday by express, and is now on exhibition at the United States court.

Served as coffee, the new coffee substitute known to grocers everywhere as Dr. Shoop's Health Coffee will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, nuts, etc., have been so cleverly blended as to give a wonderfully satisfying coffee taste and flavor. And it is "made in a minute", too. No tedious 20 to 30 minutes boiling. Shaffer Bros.

## Steam Plow.

Theodore Doss took out a fine gang plow to the Rheithal 500 acre farm, one mile north of Freistatt, yesterday. It will be hauled by a traction engine and will turn over from fifteen to twenty acres a day. Mr. Doss is a progressive farmer and is using up-to-date methods.

## Intense Colicky Pains Relieved.

"For some years I suffered from intense colicky pains which would come on at times and from which I could find no relief," says I. S. Mason, of Beaver Dam, Ky. "Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me by a friend. After taking a few doses of the remedy I was entirely relieved. That was four years ago and there has been no return of the symptoms. This remedy is for sale by all druggists."

## HEALERS MUST GET LICENSES

Jefferson City, Mo., Aug. 19.—Drugless healers must obtain licenses from the State Board of Health, if they undertake to practice their professions in this state, under the new law regulating the practice of medicine and surgery. This point was determined by Assistant Attorney General Dawson, today, in answer to a letter from J. A. Adams, of Mangum, Ok. Under the Ruling of Mr. Dawson, there are only two exceptions, which he calls attention to, and neither of them have to do with absent treatment, faith cure, Christian Science and other methods where fees are charged.

## Washington's Plague Spots

Lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles. Try them, 50c. Guaranteed by A. H. Cox & Co.

## Convention Call

The 17th Annual Convention of the Twenty-third District W. C. T. U. will convene in the Christian Church at Aurora, Mo., August 26-27, 1909. Mrs. Mary Harris Armour, State President of the Georgia W. C. T. U. will be present and address the convention on the afternoon and evening of the 26th. Mrs. Armour has the enviable reputation of being the finest woman speaker since our late beloved Frances Willard. Aurora is making careful preparation for the entertainment of delegates and nothing will be overlooked which will add to the comfort of visitors and the success of the convention. A Matron's Gold Medal Contest is arranged for the evening of the 27th. The Union will be expected to report the work of the year fully, each superintendent speaking on the work of their department during the year. Each Union should have full representation—i. e. the president and two others for all unions numbering ten or less, and one for each additional five paying members. All trains will be met by the Reception Committee. District President—Mrs. May Lavere Woods, Mt. Vernon, Mo. Corresponding Secretary—Mrs. Eliza Robinson, Aurora, Mo. The four protestant churches of Griswold, Iowa, are planning to merge into two. The plan could be carried out to advantage in a great many towns.

## TWO KINDS OF HARNESS

### MY KIND

MATERIAL.—When I begin work on a set of harness, the leather must be of highest standard before I start to cut. I select proper thickness of every strap for the different parts, and give each strap a careful test.

WORKMANSHIP.—Every strap is thoroughly moistened, vigorously rubbed and slicked before it is stitched, which prevents stretching—loosening of stitches—a possible accident.

### OTHER KINDS.

There are many of them, but none I can recommend for safety, like my Shop-Made Harness.

### REPAIRING NEATLY DONE.
